## Ibiza

Pedra's Barbecues are made of high quality pre-cast concrete. The composition of Pedra grills are manufactured with damage resistant materials. These materials are designed with built in structure to allow simple installation, easy adjustment and adaptation to any environment.

All the walls are built with high-grade heat insulation, that retains the heat of the grill, allowing minimal heat loss through the barbecue's walls. The assembly is quick and easy through use of coupling parts.

The Ibiza is great for decks and patios.

Our most slender barbecue with 3 grill settings.

- Height: 70.86 in / 1.8 m
- Interior Width: 16.53 in / 0.42 m
- Exterior Width: 20.07in / 0.51 m
- Weight: 551.56 lbs / 250 kg

## Caipera

Pedra's ovens are made of the same quality materials as our barbecues. Solid Concrete with interior insulation ensures an even internal oven temperatures, excellent for cooking pizzas and other foods.

Oven assembly is quick and easy, just like our barbecues. Ovens are designed for outdoor use, able to easily withstand the elements for a terrific cooking experience.
